SupaBike Two Stroke and Four Stroke Engine Oils

SUPABIKE 4T RACING SYN 10W40 SN MA2

Description

SupaBike 4T Racing Syn is a ultimate performance synthetic four-stroke motor oil specially designed for extremely high revs, high stress riding present in track and racing. It is specially formulated based on racing oil technology utilising very high performance additives to ensure high engine performance and protecting even in the most demanding conditions.

Applications

SupaBike 4T Racing Syn oil is suitable in high performance air and water cooled four-stroke motorcycle engines including race tuned high revving and turbo-charged engines, and for two-stroke motorcycle gear boxes.

Benefits

- Excellent thermal and oxidation stability for exceptional performance at severe operating conditions
 - Excellent gear micro-pitting and clutch slippage protection for outstanding response and acceleration
 - Outstanding engine cleanliness for prolonged component life and high power output
 - Ultra-smooth gearshift and clutch performance for jerk free movement
- Fully compatible with unleaded fuel

Performance

API SN | JASO MA2

SUPABIKE 4T RACING 20W50 SL MA

Description

SupaBike 4T Racing is a premium quality motorcycle oil that is specially formulated based on racing oil technology to prolong engine life while providing extended drain capability and ultra-smooth, jerk free riding performance. It is manufactured using highly refined fluids and high performance additives to provide excellent engine protection and performance under all operating conditions.

Applications

SupaBike 4T Racing oil is suitable high performance air and water cooled four stroke motorcycle engines including race tuned high revving and turbo-charged engines, and for two-stroke motorcycle gear boxes.

Benefits

- High level of engine cleanliness and wear protection even on extended drain interval
- Excellent gear micro-pitting and clutch slippage protection for outstanding response and acceleration
- Exceptional thermal and oxidation stability to resist oil breakdown even at high temperatures

Performance

API SL | JASO MA

SUPABIKE 4T PLUS 20W50 SG MA

Description

SupaBike 4T Plus is a premium quality motorcycle oil that is specially formulated to prolong engine life while providing extended drain capability and ultra-smooth, jerk free riding performance. It is manufactured using unconventional fluids and high performance additives to provide excellent engine protection and performance under all operating conditions.

Applications

SupaBike 4T Plus oil is suitable high performance air and water cooled four stroke motorcycle engines including race tuned and turbo-charged engines, and for two-stroke motorcycle gear boxes.

Benefits

- Excellent engine and transmission protection from excessive wear even on extended drain interval
- Exceptional thermal and oxidation stability to resist oil breakdown even at high temperatures
- Suitable for two-stroke engine gear box

Performance

API SG | JASO MA

SUPABIKE 4T 40 SG MA

Description

SupaBike 4T is a premium quality motorcycle oil that is specially formulated to prolong engine life while providing extended drain capability and ultra-smooth, jerk free riding performance. It is manufactured using unconventional fluids and high performance additives to provide excellent engine protection and performance under all operating conditions.

Applications

SupaBike 4T oil is suitable high performance air and water cooled four stroke motorcycle engines including race tuned and turbo-charged engines, and for two-stroke motorcycle gear boxes.

Benefits

- Excellent engine and transmission protection from excessive wear even on extended drain interval
- Exceptional thermal and oxidation stability to resist oil breakdown even at high temperatures suitable for two-stroke engine gear box

Performance

API SG | JASO MA

SUPABIKE 2T OUTBOARD TC

Description

SupaBike 2T Outboard is a premium performance two-stroke motor oil specially engineered for use in water cooled outboard engines (large and small output) running at varied fuel to oil ratios are specified by the OEM.

Applications

SupaBike 2T Outboard oil is highly recommended for use in water-cooled high performance two stroke engines. It is also suitable for use in air-cooled engines requiring API TC, JASO FC with electronic fuel injection (EFI), direct fuel injection (DFI) or carburettor for motorbikes, motocross, mopeds, lawnmowers, scooters, jetskies, chain saws, go-karts and all-terrain vehicles (ATV) as well as industrial and agricultural two-stroke engine equipment.

Benefits

- Excellent rust and corrosion resistance
- Excellent detergent and dispersant technology for engine cleanliness, prevention of ring sticking and optimum power output
- Advanced ashless technology to minimise deposits and prevents spark plug fouling and pre-ignition
- Excellent lubricity to prevent piston and cylinder scuffing

Performance

NMMA TC-W3

SUPABIKE 2T TC FC

Description

SupaBike 2T is an extreme performance synthetic blend two-stroke motor oil specially engineered based on racing oil technology for the extreme protection of all modern high revving and extreme performance two-stroke motorcycle engines operating under severe conditions. It is specially formulated from premium quality base oils, exclusively selected low-ash additive technology and prediluted with a high quality solvent to facilitate mixing with gasoline at all temperatures. It ensure excellent engine power, piston cleanliness, optimum oil film strength and thickness to prolong engine life in very robust riding conditions,

Applications

SupaBike 2T oil is highly recommended for use in air-cooled high performance two stroke engines with electronic fuel injection (EFI), direct fuel injection (DFI) or carburettor for motorbikes, motocross, go-karts and all-terrain vehicles (ATV) as well as industrial and agricultural two-stroke engine equipment.

Benefits

- Excellent oil film strength for engine protection and reliability at high revs and temperature
- Excellent control against exhaust system blocking, spark plug fouling and engine seizure
- Clean and efficient burning for very low smoke emission
- Prevents ring sticking

Performance

JASO FC | APITC
